THE WANDSWORTH BRIDGE ROAD

When the Wandsworth Bridge was opened in 1873, food for the occasion was provided by the Spread Eagle pub nearby. Constructed to link Fulham and Wandsworth, the bridge was built by popular demand from local residents and businesses, who felt an extra link between the north and south banks would be beneficial for the area.

Today, it stands as proud as ever, at the head of one of London's busiest roads... The Wandsworth Bridge Road.
